SUMMARY

- **Summary:** I have completed my Bachelor's in Information Technology (BS-IT), during which I gained strong foundational knowledge in software development. I have successfully completed internships at two different organizations, where I had the opportunity to work on a wide range of projects. My main expertise lies in the MERN stack (MongoDB, Express.js, React.js, Node.js), where I have developed several full-stack applications, honing my skills in both frontend and backend development.

With hands-on experience in building web applications, integrating APIs, and working with databases, I am proficient in creating dynamic, responsive, and user-friendly applications. My internships have allowed me to work in collaborative environments, meet project deadlines, and continuously improve my technical abilities.

EDUCATION

- **University of Education (UOE)** Pakistan
 - *Bachelor of Science in Information Technology* *Nov, 2020 – Aug, 2024*
 - **CGPA:** 3.5
 - **Courses:** Software Engineering, Artificial Intelligence, DSA, OOP, DBMS, DBA, Operating Systems, Data Warehouse, Web Development, Mobile Application Development, Computer Networks, Calculus and Analytical Geometry, Probability and Statistics, Linear Algebra, Data Mining.

WORK EXPERIENCE

- **IIFA TECH, Pakistan** July, 2024 - Sep, 2024
 - *Associate Software Engineer* *Full-time, Onsite*
 - Completed a 2-month MERN stack internship at IIFA TECH software house.
 - Developed CRUD projects utilizing Redux and Redux Toolkit for efficient state management.
 - Built a fully functional e-commerce website using the complete MERN stack (MongoDB, Express.js, React.js, Node.js).
 - Gained hands-on experience in building scalable web applications and integrating various APIs.
 - Strengthened skills in both frontend and backend development, focusing on creating responsive and dynamic user interfaces.
- **Knowledge Stream, Pakistan** September, 2023 - December, 2023
 - *Software Engineer* *Part-time, Onsite*
 - Successfully completed a 3-month bootcamp at Knowledge Stream Institute.
 - Gained a strong understanding of the MERN stack basics, including MongoDB, Express.js, React.js, and Node.js.
 - Learned essential concepts in full-stack web development, building foundational skills in both frontend and backend technologies.
 - Developed the ability to create simple web applications and work with databases and APIs.

SKILLS

- **Web Development:** HTML, CSS, Bootstrap, Tailwind CSS, Javascript, Reactjs, Nodejs and Expressjs.
- **Databases:** MongoDB, PostgreSQL
- **Soft-Skills:** Problem-solving, Leadership, Teamwork, Time management, Effective communication skills, Empathy.

LANGUAGES

- **English:** Professional Working Proficiency
- **Urdu:** Full Professional Proficiency
